

We help to go to remote work. Services and links to help

Do My Homework

Every day we promptly prepare the latest news in social networks and collect materials with recommendations: what to learn while sitting at home, how to wash your hands correctly, if you went to the store for bread. In this material we will try to show and tell about the most important thing that you can still read, look and go through, while there is an extra free time.

Have questions? Contact our virtual guide - he will prompt at any time where to find the materials of interest.

Remote Education: Online Assistant Webinars Quarantine will ever end, and while you save a couple of hours daily, which went on trips, it is worth taking care of your own psychological health. "As a teacher to cope with negative states" - a webinar in which we will discuss: why it is important to treat with respect for your inner space, what signals it transmits to us, and what to do with a negative. Tell me how to help yourself using simple practices.

Of course, let's talk about school conflicts. They are different, but the essence of them is always alone - misunderstanding. You will see that most negative situations can be avoided. At least you will definitely understand how to cope with them.

What else to see?

Webinar about digital technology and remote learning - the information is accurately useful in the near future until the whole school on quarantine.
